MIDDLETOWN UPDATE ON WINTER STORM ALFRED

Middletown – Mayor Sebastian Giuliano would like to remind Middletown residents that the emergency shelter at Middletown High, 200 LaRosa Lane is open. Showers, food and charging of devices are available. Pets will be allowed and should be in carriers. Pet owners must provide food and any necessary medications for their pets.

Approximately 94% of Middletown residents are without power.

CL&P, along with City public work crews and Tree Removal crews are in the process of tree removal from wires. With the restoration of power to begin when that is accomplished. As of Sunday night all roads in the city are passable. The Governor and CL&P issued a statement that this process may take up to a week to restore power.

You are also advised to be careful around any downed trees or branches, as wires could possibly be intertwined and not visible.

Anyone with questions should call (860) 347 0144
